

# American POTATO JOURNAL

*Official Organ of  
The Potato Association of American*

VOLUME 41

JANUARY-DECEMBER, 1964

Editor-in-Chief

JOHN C. CAMPBELL

## THE POTATO ASSOCIATION OF AMERICA

% COLLEGE OF AGRICULTURE

NEW BRUNSWICK, NEW JERSEY

### OFFICERS

WALTER C. SPARKS, *President*

RICHARD L. SAWYER, *President-Elect*

HENRY M. DARLING, *Vice President*

WILLIAM G. HOYMAN, *Past President*

CHARLES E. CUNNINGHAM, *Secretary*

JOHN C. CAMPBELL, *Treasurer*

### DIRECTORS

JAMES MUNRO

JOHN S. NIEDERHAUSER

DONALD ISLEIB

### SUSTAINING MEMBERS

STARKS FARMS INC. ....	Route 3, Rhineland, Wisconsin
FRANK L. CLARK, Founder — Clark Seed Farms .....	Richford, New York
FRITO-LAY, INC. ....	3420 Singleton Blvd., Dallas 12, Texas
ROHM & HAAS COMPANY .....	Philadelphia, Pennsylvania
WISE POTATO CHIP CO. ....	Berwick, Pennsylvania
E. I. DU PONT DE NEMOURS AND CO. (INC.) Industrial and Biochemicals Dept. ....	Wilmington 98, Delaware
STERWIN CHEMICALS INC. ....	1450 Broadway, New York 18, N. Y.
MCCAIN FOODS LIMITED .....	East Florenceville, N. B., Canada

## INDEX TO VOLUME 41

## AUTHOR AND TITLE INDEX

- AKELEY, R. V., *see* MANZER, F. E.  
*see also* SANFORD, L. L., SIMPSON, G. W. and STEVENSON, F. J.
- ANDERSON, J. C. Principals and practices of agricultural research (Book review), 223.

## SUBJECT INDEX

- Acids, fatty, of potato, 18.  
Adventitious shoot formation, 129.  
After cooking blackening of Irish potato, 39.  
After-cooking darkening of Katahdin influenced by fertilizers, 274.  
Agricultural research principles and practices (Book review), 223.  
Alaska Russet: a new potato for Alaska, 137.  
Alcohol content a quality index for prepeeled potatoes, 279.  
Amino acid relationship to specific gravity, 357.  
Ammonium nitrate for rye cover crops, 201.  
Anhydrous ammonia for rye cover crops, 201.  
Aphid  
    greenpeach, in Idaho, 28.  
    transmitted leaf roll, prevention of, 23.  
Ascorbic acid  
    content as affected by nitrogen, phosphorus and potassium, 169.  
    relationship to specific gravity, 417.  
Blackening after cooking, 39.  
Callus, observations on potato, 129.  
Chemical composition  
    relationships between specific gravity and nitrogenous constituents, 75.  
    relationship between amino acid and specific gravity and storage, 357.  
Chipping quality  
    screening potato seedlings for, 126.  
    superior in Pennchip, 54.  
    effect of nitrogen, phosphorus and potassium on, 169.  
CIPC-treated paper bags for sprout inhibition, 341.  
Common scab  
    chemical control of, 92.  
    influence of green manure and crop rotation on, 265.  
    resistance to, in Pennchip, 54.  
    resistance to, in Shoshoni, 95.  
    Urea-formaldehyde for control of, 319.  
Cooking quality of Rhode Island potatoes, 1.  
Consumer packs, weight changes of potatoes in, 367.  
Cover crops, sources of nitrogen for, 201.  
Crop rotation influence on common scab, 265.  
Damage, mechanical, resistance influenced by variety and time, 178.  
Darkening, after cooking, of Katahdin influenced by fertilizers, 274.  
Darling, Henry M., honored, 291.  
Defoliation date, effect of on yield and leafroll, 83.  
Diploid solanum species, self-incompatability in, 155.  
Diseases, plant: epidemics and control (Book review), 153.  
Di-Syston evaluation for insect control, 196.  
Dry matter  
    content of early potatoes affected by irrigation, 315.  
    determination of, in potatoes, 123.  
Early potatoes, effect of irrigation on, 315.  
Environmental variability in the potato, 46.  
Eskew, Roderick K., honored, 187.  
Evans, Harold J. obituary, 225.  
F<sub>2</sub> hybrids of *S. phureja*-haploid *S. tuberosum*, 256.  
Fatty acids of potato tubers, 18.  
Fertilizers, influence of, on specific gravity and after cooking darkening, 274.  
Fertilizer requirement, effects of irrigation on, 315.  
Fertility of *S. phureja*-haploid *S. tuberosum*, F<sub>2</sub> hybrids, 256.  
Field control of potato leafroll virus, 14.  
Field plot technique for estimating specific gravity, 349.  
Fireweed, perforated leaf of in Matanuska Valley, 174.  
Food dehydration, Vol. II, products and technology (Book review), 306.

- Food engineering, fundamentals of (Book review), 35.  
Food technology the world over (Book review), 72.  
Frutchey, Cecil W., honored, 289.  
Fungicide nematocide tests (Book review), 147.  
Genetic variability of potato, 46.  
Germination of solanum pollen on artificial media, 322.  
Gibrel, foliar applications of to Huron potatoes, 212.  
Golden nematode research laboratory, 262.  
Green peach aphid, home gardens as a source of, in Idaho, 28.  
Greening of potatoes during marketing, a review, 215.  
Green manure, influence of, on common scab, 265.  
Growth of the potato (Book review), 385.  
High solids in Penobscot, 140.  
Home gardens as source of green peach aphid and virus diseases in Idaho, 28.  
Huron, seed and foliar application of "Gibrel" on, 212.  
Indicator plant, tomato as, for potato spindle tuber virus, 311.  
Insect control in New York, phorate and Di-Syston for, 196.  
Insecticides, systems, control of potato leafroll virus with, 14.  
Internal sprouting of potatoes, 59.  
Irrigation, effects of, on fertilizer requirement, yield and dry matter content of early potatoes, 315.  
Katahdin fertilization, effect on specific gravity and after cooking darkening, 274.  
Late blight  
    infection of potato tubers, 103.  
    Pennchip resistant to, 54.  
Leaf roll  
    incidence, effect of defoliation date on, 83.  
    infection, tests to prevent, 23.  
    resistance in Penobscot, 140.  
    virus, effect of date of inoculation on percent infection and symptom expression, 227.  
    virus, field control with systemic insecticides, 14.  
Maleic hydrazide, rate and absorption by potato tubers, 191.  
Malformation of tubers influenced by temperature and moisture, 377.  
Marketing, changes in weight of potatoes in consumer packs during, 367.  
Marketing standards for potatoes (committee report), 72.  
Mealiness in potatoes, objective measurement of, 244.  
Minimum tillage experiments with potatoes (a review), 263.  
Moisture stress effect on tuber malformation, 377.  
Monona, a new potato variety, 382.  
Mulch, influence of, on soil moisture, soil temperature and yield of potatoes, 337.  
Nitrogen, effect of, on specific gravity, ascorbic acid and chipping quality, 169.  
Nitrogenous constituents, relationship with specific gravity, 75.  
Nomograph for calculating specific gravity, 221.  
Pennchip, a variety resistant to late blight and scab with superior chipping quality, 54.  
Penobscot, a variety with leafroll resistance and high solids, 140.  
pH, affected by storage temperature, 163.  
Phorate evaluation for insect control, 196.  
Phosphorus, effect on specific gravity, ascorbic acid content and chipping quality, 169.  
Phosphorylase enzyme activity affected by storage temperature, 163.  
Pollen germination of solanum on artificial media, 322.  
Potassium, effect on specific gravity, ascorbic acid content and chipping quality, 169.  
Potato  
    blackening after cooking, 39.  
    chemical composition, 75.  
    cooking quality, 1.  
    darkening after cooking, 39, 214.  
    fatty acids of, 18.  
    genetic and environmental variability, 46.  
    insect control in New York, 196.  
    internal sprouting, 59.  
    leafroll virus relation to green peach aphids, 28.  
    leafroll incidence, 83.  
    leafroll infection, 23.

- leafroll virus, effect of date of inoculation on infection, 227.
- leafroll virus, field control of, with systemic insecticides, mealliness, objective measurement of, 244.
- spindle tuber virus, 311.
- Potato Association of America
  - abstracts, 293.
  - annual meeting announcement, 189.
  - call for papers, 70, 100.
  - call for pre-registration and room reservations, 145.
  - committee membership, 70.
  - committee report on potato quality and grade standards, 72.
  - minutes of executive committee and business meeting, 283.
  - program of forty-eighth annual meeting, 148.
  - registration blank, facing page 148.
- Powdery scab, resistance, 374.
- Prepeeled potatoes, alcohol content an index of quality for, 279.
- Red Pontiac yields as affected by virus x, 208.
- Reducing sugars affected by storage temperature, 163.
- Respiration of tubers, 377.
- Rhizoctonia, Terraclor as a control of, 239.
- Rye cover crop, sources of nitrogen for, 201.
- S. phureja-haploid S. tuberosum F<sub>2</sub> hybrids, 256.
- Saco, effect of spindle tuber virus on yield of, 113.
- Scab, *see* common scab, also powdery scab.
- Scott, Charles B., obituary, 154.
- Self-incompatibility in diploid solanum species, 155.
- Shoshoni, a new variety resistant to scab and verticillium wilt, 95.
- Soil moisture, influenced by mulch, 337.
- Solanum tuberosum, fatty acids of, 18.
- Specific gravity
  - a nomograph for calculating, 221.
  - field plot technique for estimating, 349.
  - relationship of free amino acids to, 357.
  - relationship to total solids, 329.
  - relationship to nitrogenous constituents, 75.
- Spindle tuber virus
  - effect on Saco, 113.
  - tomato a source of and indicator plant for, 311.
- Sprout inhibition with CIPC treated paper bags, 341.
- Sprout inhibited potatoes detected, 382.
- Sprouting, internal, 59.
- Storage temperature effect on reducing sugars, pH and phosphorylase enzyme activity, 155.
- Systemic insecticides for control of potato leaf roll virus, 14.
- Temperature influences tuber malformation, 377.
- Terraclor as a control for rhizoctonia, 239.
- Tomato, a source of and indicator plant for potato spindle tuber virus, 311.
- Urea-formaldehyde for control of common scab, 319.
- Verticillium wilt resistance in Shoshoni, 95.
- Viking a new high-yielding red potato variety, 253.
- Virus x, effect on Red Pontiac yields, 208.
- Weed control, chemical, in West Bengal, 117.
- Westfall, Frank L., honored, 292.
- Yield
  - effect of irrigation on early potatoes, 315.
  - effect of spindle tuber virus on, 113.
  - influence of mulch on, 337.
  - affected by virus X, 208.
- Errata
  - Table of contents, July issue, seventh article and page 221 in title, *read* nomograph for monograph.
  - Table of contents, April issue, second article, after virus, *insert* on.
